About This Game

Jetlad is a challenging jet-fueled platformer. Help Jetlad collect the gems in each level and make it to the goal unharmed.

Instead of jumping, Jetlad uses his jet-pack to fly. Jetlad's jet-pack will explode when it runs out of fuel.

There are 30 levels with various challenges Jetlad must overcome to get to his goal. Each level has 3 basic gems and 1 secret gem for Jetlad to find.

Are you able to help Jetlad overcome the hazardous obstacles that await him?

This game can be played with a wired XInput controller.

If the game cannot read your controller inputs, then try disabling the input mapper in Steam controller settings.

Title: Jetlad
