This supposed to be "an intense pitfall action game", bullet-hell type, you're falling so some trap with billions of traps on your way and have to dodge them all or die trying. With the emphasis on the last part. A terrible color palette, absolutely unbalanced, mindless gameplay, and 5000 achievements just for the single opening of the "game." Another trashy fake instead of a normal game in your profile. Soon such pseudo-developers will gain enough strength to occupy more and more places on the market, like cancer cells that replace normal ones. I can only wonder at those who accept this willingly. 0/10 mark.. Quite challenging but simple arcade with 3 difficulty settings and colorful graphics. The soundtrack is cool, but repeats alot. There doesn't seem to be much variation in the levels, so it can become boring fast. There are alot of coupons for Virtual Top, so it shouldn't be hard to get it cheaper for an easy 100% achievement completion.. Quite challenging but simple arcade with 3 difficulty settings and

There are alot of coupons for Virtual Top, so it shouldn't be hard to get it cheaper for an easy 100% achievement completion.. This game can be impossabile at times because you need to turn at fractions of a second and the ablitle to die the easiest of ways from moveing into a bullet that you didnt see coming the the pillars that blind in with the map. Yea you don't need to play alot like 5 mins top to get all 5k achivevements. I wouldn't gotten this game if it wasn't in that Steam Sale deal.. This game is merely a shell for achievement spam and +1 collectors, it comes with all the achievements pre-unlocked; you install the game, run it for a few minutes then close it and all the achievements registers unlocked on your account.. Garbage achievements spam game, don't bother.. If you want a headache you can try and play it,but it's just one of those bad games that are good only if you want 5000 achievements.. Not worth 8p.. very hard game
